VHS Chorus Travel Scholarship Fund

Venice High School Chorus is passionate about our singers and their education. A unique element of the choral program is that students are offered travel opportunities that allow for a wide variety of learning experiences locally, nationally, and even internationally. Our singers are able to work with world-renowned conductors, perform high-quality choral literature, and create relationships with other singers from all over the world. These opportunities offer once-in-a-lifetime experiences for these students, and will provide them with memories, lessons, and life-changing moments that they will never forget.

Venice High School and the Choral Boosters believe that no student should ever be held back from opportunities because of their financial status. Therefore, we offer financial support to our students to ensure they have access to these life-changing opportunities. We are asking for community support to establish a sustainable scholarship fund for students in need of financial assistance for travel. Would you be willing to participate in our sponsorship program so that we can offer the world to all of our students?
